

Project Name: **Laurel Road Convenience Center and Truck Fueling Facility**
 Developer/Client: **KMB Development Inc.**
 Project Location: **Venice, Florida**
 Project Value: **\$ 2,000,000**

Stillwater provided professional services including conceptual site plan design, and detailed petroleum system plans for this project which included a 3,200 SF c-store, six (6) dive-in style gas dispensers, two (2) truck fueling positions and a truck wash. Project challenges included designing the facility to allow truck ingress/egress from numerous access points due to changing and phased roadway improvements around the project. Stillwater worked with the developer to optimize the balance between auto and diesel petroleum
