**1 PETROLEUM SYSTEM INSTALLATION PLAN**

Project Name: **Lee Road C-Store Petroleum Plan Preparation - Raze and Rebuild**  
 Developer/Client: **Medallion Convenience Stores**  
 Project Location: **Orlando, Florida**  
 Project Value: **\$ 800,000**

Stillwater prepared petroleum plans for this raze and rebuild project. An island marketer with four (4) MPDs was demolished and a new 3,000 SF C-store with six (6) stacked fueling positions was constructed. This site was the first to utilize Medallion's new image and architectural style. Xerxes double-walled, fiberglass USTs and Dresser-Wayne Ovation dispensers were utilized for the petroleum storage and distribution.
