

Project Name: **Petroleum System Upgrade/Reimage - Shell**
 Developer/Client: **Florida Petroleum Services**
 Project Location: **Lakeland, Florida**
 Project Value: **\$160,000**

The project consisted of completion of a petroleum system upgrade including installation of new 12,000-gallon and 10,000-gallon underground storage tanks, a new canopy and four (4) new blending dispensers were proposed. All product piping was replaced with new double-walled flexible pipe.
