

Project Name: **Petroleum Upgrade - Gate #209**
 Developer/Client: **Gate Petroleum Company**
 Project Location: **Pooler, GA**
 Project Value: **\$180,000**

Stillwater prepared petroleum system upgrade plans for this existing convenience store facility near I-95. The project consisted of the replacement of all sumps on the existing UST's. Eight (8) existing single and multi-product dispensers were removed and a new canopy with six (6) new multi-product dispensers were installed. All product piping was removed and replaced with new double-walled flexible product pipe.
